# **Staff to Discuss WNTC Additions**

WNTC will have a general staff meeting Monday, Dec. 13, at 7 p. m. in room 101 of the Clarkson Physics Building. The items on the agenda are the discussion of general improvements in the stations, the qualifications of board members in preparation for nominations for the new board and the reading of former station Manager Charles Winters' resignation.

Carl Benedict, Director of Engineering and his staff installed a transmitter in the Clarkson Men's Residence during October. A line amplifier is being built to be installed in the station to ease the load of the new transmitter to be installed in the Pierrepont Avenue Dormitory soon.

A design for a station key was presented at a recent board meeting. A committee consisting of Richard Ashcroft, Richard Hill and Carl Benedict drew the design. The key will be given as a badge of honor to members of the board upon their election.

WNTC will broadcast the entire schedule of Clarkson home hockey games, and the games at R.P.I. and Boston University. The station will also broadcast as many of the Clarkson basketball games as possible.

Lydia Urban is director of the new radio show, Piano Personalities, which features live talent.
